

For almost 50 years, since Roe v. Wade in 1973, the aborted fetus pandemic has been the Second Holocaust. Innocent children have been being slaughtered daily because they are “undesirable” or “have a defect”. Sound familiar?

There is hope!

Heroes have been forgotten and have not been given any recognition for their service to humanity.

Most vaccines today are grown from cells that originally belonged to aborted fetuses. Their cells are kept alive and used. When you receive a vaccine you are receiving a gift from an unborn child. The cells from the children are given letters and numbers as “names”.

Please pause for a moment in memory of these children. As war veterans who gave their lives so that we could live in a free country, so these children gave their lives so that we could live free from disease, and that without their consent.

PLEASE STAND AND SPEAK EACH CHILD’S

NAME OUT LOUD IN THEIR HONOR:

RA273, WI-38, WI-26, WI-44, MRC-5, HEK-293, IMR-90, IMR-91, Lambda.hE1, PER C6, WALVAX2, and countless unnamed others.

These heroes should be given medals by the President or Queen for saving billions of lives from disease and continuing to do it today. They should be canonized by the Catholic Church, and have trees planted for them in the Righteous Among the Nations Garden in Israel.

There is nothing wrong with receiving a vaccine as long as you recognize who is truly responsible for its existence, that not being the doctors but the unborn children who gave their lives. If these children were openly rewarded for their heroism today, people’s minds would be permanently changed about abortion and about vaccines.
